

Corner Brook NEWFOUNDLAND

LOGISTEC

LOGISTEC handles containers, cruises, break-bulk and project cargo at this deep-water facility in Western Newfoundland. Corner Brook offers year-round access to the end of the Humber Arm, a fjord connected to the Gulf of St. Lawrence. At the port's large, multi-use dock, we work on behalf of clients in the oil and gas, pulp and paper, fisheries, natural resource and energy industries to use this location as a gateway to project sites throughout the island.
