

Maisonneuve Terminal

MONTRÉAL, QUÉBEC

TERMONT

We have been handling containers at the Maisonneuve Terminal for over 25 years on behalf of major shipping lines, notably Mediterranean Shipping Company (MSC).

Termont provides operations management and container handling services, such as receiving and discharging import and export cargo, and transloading containers directly to trucks and railcars. We can safely accommodate over 500,000 TEUs per year, and are equipped with specialized cranes and intermodal terminal equipment. Our team uses state-of-the-art inventory control systems to track shipments for our clients.
