

Milton FLORIDA

Pate Stevedore is well-known in Florida for our expertise in handling a wide variety of cargo including forest products, steel, wind energy components, and 'mega project' cargo, including heavy lift. Our mobile harbour cranes and specialized equipment complement the enlarged open pier at this multi-purpose facility. Pensacola and Panama City are located in the ports and Milton is our inland terminal.

Our experienced team of professionals offers transloading, stuffing/destuffing of containers, and other port logistics services to help connect quickly and cost-effectively with intermodal transport via rail directly at the port.
