

Quai Multiusager

SEPT-ÎLES, QUÉBEC

LOGISTEC

The Port of Sept-Îles is a deep-water port at which we can handle bulk, break-bulk, and project cargo for mining companies, shippers, and import/export businesses.

The multiuser dock is ideally suited for iron ore and other bulk cargo. Sept-Îles is a strategic location at the heart of Plan Nord projects and markets, and is ideal for short sea shipping and the natural resources industry.
