

Calvert ALABAMA

LOGISTEC

Calvert, Alabama is an important port and logistics hub, seamlessly connecting rail and barge networks to serve the thriving steel industry. As the terminal operator at Calvert, we uphold the highest safety and environmental standards, driving efficient steel supply chains and supporting Alabama's economic growth moving between vessel, rail, barge and truck to access markets throughout the US South and Mid-West.

LOGISTEC Calvert provides stevedoring services to AMNS on the AMNS steel mill property in Calvert AL. AMNS owns the cranes and equipment - we operate the equipment to load/unload barges.
