

Dundalk Marine Terminal

BALTIMORE, MARYLAND

LOGISTEC

LOGISTEC handles cargo on behalf of many of the world's largest forest product companies, including manufacturers of magazine and tissue papers.

Our experienced team uses a range of modern equipment, including the latest clamp technology, throughout our storage and distribution facilities. Our clean, paper-grade warehouses can accommodate over one million square feet of cargo.

In addition to forest products, we can handle other types of break-bulk at the Port of Baltimore's large and versatile Dundalk Marine terminal, including steel, project cargo, and ro-ro.

SERVICES OFFERED

- Cargo handling
- Stevedoring
- Warehousing (paper grade)
- Transloading
